

# We Have an Appetite for Green

## Green Item of the Month

### Straus Family Creamery Organic

European Style Yogurt 32 oz  
Selected Varieties

\$3.59

#### ORGANIC EUROPEAN-STYLE YOGURT

The smooth, creamy texture is unlike any other yogurt you'll ever taste.

All of our organic yogurts are made without stabilizers, so they pour right out of the container. Yum!

We incubate our yogurt in stainless steel vats, then pour the cooling yogurt into the cups before quickly refrigerating them to maintain their fresh flavors.

The 4 live and active cultures in our yogurts are now ready to go to work in your body!

Yogurt might just be the perfect food: loaded with protein and calcium, plus the beneficial bacteria that keeps your intestinal system running smoothly. What a great way to stay healthy all year long.

Our yogurts come in plain, maple and vanilla flavors in whole milk, lowfat and nonfat versions.
